This document lists activities where EUCAST guidelines and methods are discussed during ECCMID.

EUCAST Workshop (ECCMID Session): Saturday 13/4, 08:45-12:45, Hall A.

Antimicrobial susceptibility testing (AST) with EUCAST methods and breakpoints co-organised with the European Committee on Antimicrobial Susceptibility Testing (EUCAST)

EUCAST news - Christian Giske (Sweden)
Redefining susceptibility categories and introducing areas of technical uncertainty - Gunnar Kahlmeter (Sweden)
Challenging drugs for AST: e.g. fosfomycin, polymyxins - Johan Mouton (Netherlands)
Challenging bugs for AST: e.g. H. influenzae - Erika Matuschek (Sweden)
Whole genome sequencing in AST: what’s new? - Matthew Ellington (United Kingdom)
EUCAST around the world - Qiwen Yang (China)
Antifungal Subcommittee update - Maiken C. Arendrup (Denmark)
Interactive panel discussion

1. OS042 - Rapid AST: options and successes (Oral session), Saturday 13/4 from 14.45 – 15.45 Hall H.
2. PL003 - Other issues and diverse late breaker aspects, Paper Poster Session, Saturday 13/4 from 15.30 – 16.30
3. EUCAST Subcommittee on Antimycobacterial Susceptibility Testing (AMST). General Meeting (open): Sunday 14/4 from 08:00 to 10:00, room G111 (32 seats)
4. EUCAST Subcommittee on Antifungal Susceptibility Testing (AFST). General Meeting (open): Sunday 14/4 from 16:00 to 18:00, room D201/202 (200 seats)
5. ECCMID Meet the expert session: EUCAST frequently asked questions (Erika Matuschek and Rafael Canton), Monday 15/4 07:30-8:30, Hall E
6. PS099 - MIC testing (various species), Paper Poster Session Monday 15/4 from 12.30 – 13.30
7. EUCAST General Committee. General Meeting (open): Monday 15/4 from 08:45 to 09.45 room D201/202 (200 seats)
8. PS158 - Disk diffusion susceptibility testing, Paper Poster Session Tuesday 16/4 from 12.30 – 13.30
9. EUCAST Subcommittee on Veterinary Susceptibility Testing (VetCAST): Tuesday 16/4 from 14:30 to 15:30, room G110 (32 seats)

In the field of Antifungal susceptibility testing, the following posters and oral presentations deal with EUCAST related issues:
1. Maiken Cavling Arendrup, Karin Meinike Jørgensen, Rasmus Krøger Hare, Manuel Cuenca-Estrella, Oscar Zaragoza Hernandez. **EUCAST reference testing of rezafungin susceptibility: impact of choice of plastic plates.** Poster. ECCMID, 13 – 16 April 2019, Amsterdam, Netherlands

2. Karin Meinike Jørgensen, Rasmus Krøger Hare, Karen M. T. Astvad and Maiken Cavling Arendrup. **EUCAST susceptibility testing of isavuconazole: MIC data for contemporary Danish clinical mould isolates.** Abstract number: 7227- poster, Poster 1767. ECCMID, 13 – 16 April 2019, Amsterdam, Netherlands

3. Karin Meinike Jørgensen, Karen Marie Thyssen Astvad, Rasmus Krøger Hare, Maiken C. Arendrup. **EUCAST susceptibility testing of rezafungin: MIC data for contemporary Danish clinical yeast isolates.** Oral. ECCMID, 13 – 16 April 2019, Amsterdam, Netherlands

4. Maria-Ioanna Beredaki, Johan W. Mouton, Maiken C. Arendrup, Spyros Pournaras, Joseph Meletiadis. **Pharmacokinetic/pharmacodynamic modelling of posaconazole against Candida glabrata isolates: determination of EUCAST PK/PD breakpoints.** ECCMID, 13 – 16 April 2019, Amsterdam, Netherlands

6. Panagiota-Christina Georgiou, Johan W. Mouton, Maiken C. Arendrup, Spyros Pournaras, Joseph Meletiadis. **A rapid (within 2 hours) phenotypic test for the detection of anidulafungin-resistant Candida glabrata isolates: a proof-of-concept study.** Poster. ECCMID, 13 – 16 April 2019, Amsterdam, Netherlands
